

Imran Nahiyo

Full Stack Developer

Karachi, Pakistan · +92 316 3161619 · imrannahiyo2@gmail.com

PROFILE

I build production platforms for European and international teams — compliance tooling, ad infrastructure and education products. Five years employed across two companies with freelance client work alongside, owning products from interface design through backend and deployment.

EXPERIENCE

Ahoi Consulting UG — Germany 2023 — present · 3 years

Building production web applications with an international team. Shipped Beratungsbuddy end to end, from interface design through backend and deployment, and lead development on Fördermittel-Experten and its members' community.

Chip In Technology 2021 — 2023 · 2 years

Enterprise development work — real-world project workflows, code review and release process.

Freelance — Germany, India, Israel Alongside the above · ongoing

Client work delivered independently: the LHK Media products (ad monetisation, push notifications, AdX protection), Invoice AI, and websites for The Valuation School, The Trade Vision, Sagar Jewellery and Starial.

SELECTED PROJECTS

Fördermittel-Experten — Lead developer, team of three 2026 — present · Ahoi Consulting UG — Germany

Built a marketplace for German funding advisors — a searchable advisor directory with company verification, a funding-programme database synced from the federal Förderdatenbank, three calculators, and the admin panel that runs the whole operation.

Next.js · React · Prisma · MongoDB · Tailwind CSS · NextAuth · n8n

FME Community — Lead developer, team of three 2026 — present · Ahoi Consulting UG — Germany

Built a paid members' community for BAFA funding advisors — topic feed with rich-text posts, reactions and mentions, courses, live-call events, a leaderboard, in-app and browser push notifications, Stripe checkout, and a KMU-status assistant that pre-fills company data.

Next.js · React · Prisma · MongoDB · Tailwind CSS · Stripe · Tiptap · Web Push

Beratungsbuddy — Sole developer, design through deployment 2023 — present · Ahoi Consulting UG — Germany

Designed and built a BAFA compliance platform end to end — consultant management, project tracking, a questionnaire engine and a credit system.

Next.js · TypeScript · Tailwind CSS · OpenAI · docxtemplater · LibreOffice

AdXGuard — Frontend developer 2023 · LHK Media

Built the interface for a Google AdX protection tool — invalid-traffic detection, alert rules, partner management, multi-admin roles and a ticketing system.

React · Webpack · JavaScript · CSS

The Valuation School — Frontend developer — marketing site 2023 · The Valuation School — India

Built the public-facing website for an established finance-education business — course pages, enquiry capture, call scheduling and WhatsApp contact integration.

React · JavaScript · CSS · Figma

LHKPush — Frontend developer 2023 · LHK Media

Built the dashboard and the marketing site for a push-notification platform — campaign scheduling and subscriber analytics on top of a Firebase backend.

React · JavaScript · CSS

Invoice AI — Full stack developer Private client — Israel

Built an invoice processing system that reads documents with AI, extracts line items, and produces reconciled Excel reports.

React · Node.js · Tailwind CSS · Tesseract OCR · OpenAI

Also: LHK Media, The Trade Vision, Sagar Jewellery, Starial. Further client work is under NDA.

SKILLS

Frontend: Next.js, React, Nuxt, Vue, TypeScript, Tailwind CSS
Backend: Laravel, Node.js, PHP, CodeIgniter, REST APIs
Design & tooling: Figma, Git, Docker, Postman

EDUCATION

Intermediate in Computer Science
Two-year programme, completed

LANGUAGES

English (professional), Urdu (native)
